

[TC-01] System should up and running without any errors

Project:	Address Formatter
Component/s:	
Affects Version/s:	None
Fix Version/s:	None

Type:	Test case	Priority:	Highest
Reporter:	Aravinda Weerasekara	Assignee:	
Resolution:	Done	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original Estimate:	Not Specified		

Automated:	Yes - Unit test case and UI test case
-------------------	---------------------------------------

Description

Preconditions

Java 8
Apache Maven 3.3
(Used Spring boot 2.0.4)

Steps

1. Go to the project folder
2. Run command \$mvn spring-boot:run
3. Got to the address formatter web page(<http://localhost:8080>)

Expected Outcome

User should be able to access address formatter page without any exceptions

[TC-02] Validate end results in JSON format

Project:	Address Formatter
Component/s:	
Affects Version/s:	None
Fix Version/s:	None

Type:	Test case	Priority:	Highest
Reporter:	Aravinda Weerasekara	Assignee:	
Resolution:	Done	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original Estimate:	Not Specified		

Automated:	Yes - Unit test case
-------------------	----------------------

Description

Preconditions

Address formatter should up and running

Steps

1. Go to the address formatter web page(<http://localhost:8080>)
2. Click "Click to continue" button
3. Put a valid address in "Enter your address here:" field
4. Click "Format the address" button
5. Get results from results page

Expected Outcome

Result should be in valid JSON format

e.g.:200 Broadway Av should give {"street": "Broadway Av", "house number": "200"} as result

[TC-03] Validate Address Format "Winterallee 3" -> {"street": "Winterallee", "houzenumber": "3"}

Project: Address Formatter

Component/s:

Affects Version/s: None

Fix Version/s: None

Type: Test case **Priority:** Highest

Reporter: Aravinda Weerasekara **Assignee:**

Resolution: Done **Votes:** 0

Labels: None

Remaining Estimate: Not Specified

Time Spent: Not Specified

Original Estimate: Not Specified

Automated: Yes - Unit test case and UI test case

Description

Preconditions

Address formatter should up and running

Steps

1. Got to the address formatter web page(<http://localhost:8080/>)
2. Click "Click to continue" button
3. Put "Winterallee 3" address in "Enter your address here:" field
4. Click "Format the address" button
5. Get results from results page

Expected Outcome

Result should be in valid JSON format

```
{"street": "Winterallee", "houzenumber": "3"}
```

[TC-04] Validate Address Format "Musterstrasse 45" -> {"street": "Musterstrasse", "houzenumber": "45"}

Project: Address Formatter

Component/s:

Affects Version/s: None

Fix Version/s: None

Type: Test case **Priority:** Highest

Reporter: Aravinda Weerasekara

Assignee:

Resolution: Done

Votes: 0

Labels: None

Remaining Estimate: Not Specified

Time Spent: Not Specified

Original Estimate: Not Specified

Automated: Yes - Unit test case and UI test case

Description

Preconditions

Address formatter should up and running

Steps

1. Got to the address formatter web page(<http://localhost:8080/>)
2. Click "Click to continue" button
3. Put "Musterstrasse 45" address in "Enter your address here:" field
4. Click "Format the address" button
5. Get results from results page

Expected Outcome

Result should be in valid JSON format

```
{"street": "Musterstrasse", "houzenumber": "45"}
```

[TC-05] Validate Address Format "Blaufeldweg 123B" -> {"street": "Blaufeldweg", "houzenumber": "123B"}

Project: Address Formatter

Component/s:

Affects Version/s: None

Fix Version/s: None

Type: Test case **Priority:** Highest

Reporter: Aravinda Weerasekara

Assignee:

Resolution: Done

Votes: 0

Labels: None

Remaining Estimate: Not Specified

Time Spent: Not Specified

Original Estimate: Not Specified

Automated: Yes - Unit test case and UI test case

Description

Preconditions

Address formatter should up and running

Steps

1. Got to the address formatter web page(<http://localhost:8080/>)
2. Click "Click to continue" button
3. Put "Blaufeldweg 123B" address in "Enter your address here:" field
4. Click "Format the address" button
5. Get results from results page

Expected Outcome

Result should be in valid JSON format

```
{"street": "Blaufeldweg", "houzenumber": "123B"}
```

[TC-06] Validate Address Format "Am Bächle 23" -> {"street": "Am Bächle", "housenumber": "23"}

Project:	Address Formatter
Component/s:	
Affects Version/s:	None
Fix Version/s:	None
